EDUCATION

University of Cincinnati, Carl H. Lindner College of Business

Cincinnati, Ohio

Master of Science, Business Analytics

May 2026

- GPA: 4.0

Transylvania University

Lexington, Kentucky

Bachelor of Arts, Mathematics

May 2024

- GPA: 4.0

WORK EXPERIENCE

Graduate Assistant

August 2025- May 2026

University of Cincinnati Center for Business Analytics and AI

Cincinnati, Ohio

- Sport Data Engineering Project | Spring 2026
 - Collaborated with the UC Football Sport Science department to create a centralized framework for monitoring and analyzing athlete health and performance data
 - Designed preliminary data model to organize and unify data sources
 - Ingested data into Snowflake from two priority data sources, validating the approach for future work
- Natural Language Processing Project | Fall 2025
 - Collaborated with stakeholders from HBH Holdings to develop a tool to streamline the spec review process
 - Developed a RAG pipeline and UI to answer user-specific questions about confidential documents
 - Utilized OCR and prompt engineering to improve prototype accuracy by 20%

Data Science Intern

June 2024- June 2025

Infineon Technologies

Lexington, Kentucky

- Prepared data for future use by performing validation, exploratory analysis, and manipulation
- Developed mathematical and machine learning models and translated results into business decisions
- Created interactive Tableau dashboards to visualize data and relevant KPIs for company stakeholders
- Communicated findings to non-technical colleagues in a clear and concise manner

Research Assistant

May 2023- August 2023

Transylvania University

Lexington, Kentucky

- Designed mathematical models to simulate information spread on online networks
- Collaborated with my faculty mentor to write a detailed research report summarizing our findings
- Presented results to the university community during a student research symposium

E.L.F. Fellow

April 2022- May 2024

Transylvania University Academic Center for Excellence

Lexington, Kentucky

- Organized and led forum meetings twice per week to provide extra assistance for students in Calculus classes
- Communicated weekly with faculty members to determine the topic for each forum
- Created lesson plans that reviewed content from class and allowed students to engage with the material in a new way
- Fostered a sense of community among students to encourage active participation and shared learning

Mathematics Drop-In Tutor

September 2021- May 2024

Transylvania University Academic Center for Excellence

Lexington, Kentucky

- Conducted individual and group tutoring sessions for students in a variety of different math courses
- Facilitated students' learning by re-emphasizing important concepts and assisting with practice problems

TECHNICAL SKILLS

- Proficiency in Python, R, SQL, Tableau, and Snowflake
- Experienced with machine learning, statistical analysis, visualization, natural language processing, and data engineering
